Jodi Serota of META Center & Alan Steinfeld of New Realities Present:

The Keys to the Occult & The Evolution & Consciousness

PANEL & NETWORKING

Thursday
June 27th
7pm-9:45pm

with Pam Grossman, Curtis Davis, Mark Passio, Gary Jansen
& Moderator: Alan Steinfeld

What is the difference between the occult and spirituality?
Do the occult sciences still have value?
Is there a reason for their secrecy?
Why is this knowledge now emerging and how can we use?
Is it to activate a higher potential in ourselves?

The Occult has long been known for its secret knowledge. In today's digital age it is now time to reveal this ancient wisdom and understand how it can be used to evolve consciousness. Join Alan Steinfeld of NewRealities as he asks these and other timely questions to a panel of leading experts who share their wisdom about the most mystical of Western traditions. *The event will include the panel discussion and networking.*

PAM GROSSMAN is an independent curator, writer, and lifelong student of magical practice and history. She is the creator of Phantasmaphile, a blog which specializes in art and culture with an esoteric or fantastical bent, and the Associate Editor of Abraxas International Journal of Esoteric Studies. As co-founder of the Brooklyn arts & lecture space, Observatory, her programming aims to explore mysticism via a scholarly yet accessible approach.

CURTIS DAVIS began his study of the occult sciences at the age of 18. "After learning the truth about self examination, I could no longer turn back to the world of organized distorted doctrine". His studies took him into the works of Dr Connie Zweig and Aleister Crowley, as well as the Kemetic Sciences. In the age of digital content Curtis took his knowledge of the occult sciences at the next level and founded The Occult Network, Inc. He has interviewed many of the biggest names in the esoteric genre such as John Anthony West, Robert Bauval, Dr Carmen Boulter, Lon Milo DuQuette and many others. www.theoccultnetwork.com

MARK PASSIO has undertaken the task of assembling vast amounts of research in the areas of metaphysics, occultism, spirituality, symbology and consciousness studies. In 2007, Mark began presenting this information to greater public awareness in the series entitled What On Earth Is Happening. In 2010, Mark began hosting his own weekly internet radio show, also called What On Earth Is Happening, which is now broadcast live every Sunday on the Oracle Broadcasting network. - Money creation robs people of their savings by causing the hidden tax of inflation.
- Most of the personal income tax pays interest on the national debt, directly to the Federal Reserve.
